Direction - ecology

We know how important it is for our customers to respect the environment and take environmentally friendly actions.

Therefore we introduce four new ecological materials, that can be used for notebook covers.

ECO PAPERS

A range of recycled papers obtained from the food and textile industries or from paper waste.

ECOMILO

Material produced from apple waste.

OCEAN

Canvas woven from recycled plastic collected from oceans.

ECONATURAL

Material made of 100% recycled leather.

We are
FSC® certified

FSC® stands for **Forest Stewardship Council** - an organization responsible for certification of all wood-derived products, including paper.
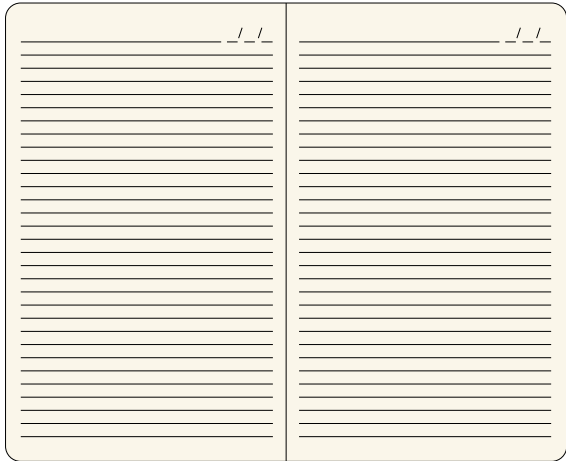

FSC® labeled products come from responsibly acquired wood, avoiding forest degradation.

By choosing FSC® certified products You contribute to saving of forest ecosystems and decrease the climate change effect.

Apple
Notebook with decorative embossing or wooden slider with apple seeds.

Pine
Notebook with decorative embossing or wooden slider with pine seeds.

Forgetmenot
Notebook with decorative embossing or wooden slider with forgetmenot seeds.

Fieldflowers
Notebook with decorative embossing or wooden slider with fieldflower seeds.

Environmental pollution has a huge impact on our lives. For decades there has been an increasing trend in the production of plastic articles, while only 14% of this type of waste is recycled.

Every year, 10 million tons of plastic waste are dumped into the oceans - this is more than a full truck per minute. The waste disrupts the proper functioning of ecosystems and is a threat to animal life.

Let's give plastic waste a second life!
Recycle!
